Abrasives & Wire Wheels

Slimcut™ SRT™

SYNTHETIC RESINOID TECHNOLOGY

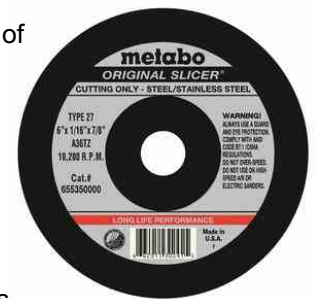

SlimCut SRT— a high performance thin Cut-Off wheel designed to cut metal and stainless steel. It is ideal for cutting thin and thick gauge as well as flat stock, bar stock square tubing, and much more.

The SlimCut SRT is engineered with a propriety SRT grain and bond mixture which makes the wheel cut faster and last MUCH longer than other abrasive thin cut-off wheels on the market.

The high performing SlimCut SRT is one of the longest lasting thin cut-off wheels on the market – this results in fewer wheels changes, reduced down time and a lower cost per cut. All of this equates to increased production, efficiency, and higher profits.

Test Study - Pearl SlimCut SRT vs. Metabo “original” Slicer® Wheel. The use of thin cut-off wheels is dominated in the market by Metabo Corporation and their “original” Slicer® wheel. An interesting and rather unexpected comparison between the two wheels recently occurred when the president of a power tool distributorship decided to remove the wood burning firebox in his family room and replace it with a gas fireplace insert.

With a stock of Metabo Slicer® wheels at his disposal, he proceeded to slice and dice through the iron firebox and its various attachment brackets. After watching the 6" Metabo Slicer® wheels disintegrate before his eyes (they literally reduced to 3" wheels within 2 minutes), he switched to a Pearl 6" SlimCut SRT wheel that his distributorship was given as free samples to try from Pearl Abrasive Corporation.

RESULT: With the same smooth and fast cutting performance as the Metabo Slicer® Wheel, the Pearl SlimCut SRT wheels outlasted the Metabo Slicer® wheels by **AT LEAST 10:1!**

AX7W8	7" x 7/8"	8	\$47.95	\$445.00 / 80 Case

Grinding Wheels

- ▶ Depressed center grinding wheels for grinding, weld dressing and deburring
- ▶ Specifically engineered for aggressive stock removal and extra long life
- ▶ All wheels are fully reinforced and meet or exceed US & Canada safety standards and specifications
- ▶ Assorted sizes and types are all available.

ITEM NO	SIZE	PACKAGE	TYPE 27 / GRIT	10 PACK PRICE

Flap, Blending / Cleaning Discs

- ▶ Grind, Clean and Blend IN ONE EASY STEP
- ▶ Multi-Layer Flap Construction - As the coated abrasive cloth flap slowly wears, new sharp abrasive grain is constantly exposed to produce a consistently high cut rate throughout the disc life
- ▶ Assorted Sizes, Grits and Types are all available for Ferrous Metals such as Iron, Steel, Stainless Steel; Non-Ferrous Metals such as Aluminum and Bronze as well as Glass; Silicon Carbide for Stone, Concrete, Marble and Granite.

- A+ for Cleaning Limestone -

Knotted Wire Cups

- ▶ Provides fast, heavy-duty brushing action
- ▶ Engineered for use on production equipment, angle grinders, portable power tools

APPLICATIONS:

- ✓ Heavy-duty cleaning of large metal surfaces
- ✓ Cleaning prior to welding
- ✓ Weld scale and corrosion removal
- ✓ Rust and paint removal
- ✓ Roughening
- ✓ Deburring
