## Stellite Joint Sealant Cutter Blade - for Concrete & Masonry Control Joints

Slices Joint Sealant from Concrete and Masonry Control Joints ~ **FAST! WITHOUT MELTING!**

### Stellite Cutters Maintain their Sharp Edge

Standard diamond blades round-over and grind, which creates friction heat.

Harden Stellite Cutters do not grind or round, they slice. Likewise, even soft joint sealant DOES NOT MELT when SLICED!

**2 FOR 1:** Joint sealant is sliced from the control joint with one (1) pass of the blade. The inside edge is scraped clean ready immediately for re-sealing.

Slices Through X-Hard Polyurea & Joint Sealant of Bubble Gum Viscosity

Fast, Easy Incredible Productivity - **NO MELTING** -

For use with standard angle grinders, cut-off saws, walk-behind and Hot Rod saws.

Hot Rod Saws - 6", 9", 10" & 12"

### Recommended Up-cut Saws

For use with the Stellite Blades - Electric, Portable, Complete Visibility and Dustless. [Hot Rod Saw Link.](#)

Slice through Hard Polyurea to Soft Urethane and Silicone - Without Melting the Sealant or Damaging the Cutters ~ **Incredible Blade**

**Durability, Productivity — Inside Joint Edges are Shaved Clean!** **DIRECTIONS:** Slice along the inside edges of the joint, pull the strip of sealant from the joint. If any residual remains use the cutter to remove it. Harden Stellite cutters are protected from premature shattering even if concrete or mortar is directly beneath the sealant.

Slice through Hard or Soft Joint Sealant

Deep Cuts without melting the sealant

Clean, finished inside edges w one pass of the blade

ITEM NO	SIZE	PRICE / EA	
		Ea	Box (5/bx)
SCB-45 SCB-45T	4.5 x 3/16 x 7/8" 4.5" x 1/8 x 7/8"	\$ 125.00	\$ 110.00

Free Variable Speed 13 Amp Angle Grinder (4-1/2" or 6") ---

With purchase of any mix of (20) diamond blades, including the Stellite Cutter Blades.

# Joint Sealant Removal - Oscillating Tools

Remove All Types of Joint Sealant Material - Hard or Soft -  
Quickly, Easily - Around Windows, Frames, Expansion Joints, Hard-to-Get Areas

- Oscillating action easily powers the blades through sealant material to quickly clean the sealant from expansion joints and facades
- Removes sealant from bathroom tile or marble
- Glazing putty from wood or aluminum window frames
- Heavy-duty oscillating blade action oscillates 4 degrees
- The tool does all the work, you guide it
- Assortment of blade for various applications, blades install onto a 12 Position Shaft for exact blade positioning

## Fein Super Cut

**\$440.00** - Model No. FSC2.OX  
**\$396.00** - Model No. FSC2.OXB

Length:	12"
Weight:	2.8 lbs.
Amps:	4.0
Oscillations / Min.	11000 - 18500

- Included Equipment:**  
MODELS - **FSC2.OX**  
**FSC2.OXB**
- Tool, Carrying case
  - 1 loop handle
  - 5 Straight Cutter Blades (117)
  - 1 Tapered Long Blade (116)
- Tool, Carrying case

**Free Freight on 2+ Fein Tools**

## Makita Multi-Tool Tool-Less Blade Changing

**\$159.00**  
Model No. TM3010CX1

Length:	10-3/4"
Weight:	3.1 lbs.
Amps:	3.0
Oscillations / Min.	6000 - 20000

- Included Equipment:**  
MODEL - **TM3010CX1**
- Tool, Carry Case
  - 1 Plunge blade (A-95255)
  - 1 Sanding Pad (A-95423)
  - Sandpaper - 10 pc assortment, 120-180 Grit
  - Accessory adapters (2) for using competitive Multi-Tool blades

## Comparison

40% more powerful than the Makita Multi-Tool

- 70% faster cutting vs the Fein Super Cut
- 50% less vibration & significantly quieter than the Fein Super Cut

## Blade Selection Chart

3-1/4" Straight Blades — fits Multi-Tool & Fein  
Extra Long 4-3/8" Straight Blades — fits Fein SuperCut  
4-1/8" Taper Blades — fits Multi-Tool & Fein  
Extra Long 6-1/8" Taper Blades — fits Fein SuperCut
