

# DUST DIRECTOR®

## Liquid Waste Extraction

## Separation

## Containment, Recycling

## Automatic Discharge Vacuums – 3 Models

### Water Recycling System for Power Tools, Floor Reclamation Pond/Pool Cleaning & Wet Vacuuming

Powerful Suction & Filtration Solutions for Tough Jobs, Rigorous Standards & Risk Protection

**Model SV-2000 ~ “A True Slurry Vacuum.”** For Diamond Core Drilling, Masonry, Tile & Stone Saws, Floor & Hand Grinders. 2-Motor Suction Vacuums AND Captures Particles down to 200 microns. Debris is Separated and Contained in the Filter Collection System as Gray Filtered Water is Discharged from the Tank for Recycling or Disposal by the Integrated Sump Pump.

#### Applications:

**Continuous Loop Operation** - Powerful 2-motor suction vacuums impressively leaves surfaces dry. Simultaneously the debris is separated from the liquid and contained in the porous filter collection bag as the filtered water is discharged in a continuous loop operation (or discharged out of the area.)

**Portable Water Supply for Power Tools** - Fill the tank with clean water and reuse the water in a continuous loop operation: The slurry is vacuumed, debris is captured, and filter water is delivered from the tank back to the tool by the sump pump. Save time with fewer interruptions for refilling and disposing of water tanks, keep the work site clean and traps slurry for easy waste disposal.

**Pond & Pool Cleaning** - Water, algae, mud and foliage are all vacuum and contained in the porous filter bag. The filtered water can then be pumped back into the pond/pool.

**Work Faster, Cleaner and be More Environmentally Friendly** - Slurry is contained in the porous filter bag that provides for easy, safe and proper waste disposal.

S-2000  
\$1,180.00

High Efficiency Slurry Collection Bag - Removal

Handling the Slurry.

Emptying the Slurry.

Separator Basket - Isolates the White Slurry Collection Bag.

Stainless Steel Separator Plate – Isolates the Sump Pump –

#### Features:

- Stainless Steel Separator Plate - Separates the float on the sump pump from entangling with the Separation & Filtering System
- Power: Two (2) 1000 Watt (8.5 amp) Motors, 195 CFM, 126" H2O; Discharge Pump - 4.5 Amp, 3/4 HP
- High Efficiency Slurry Collection Bags (2 included) - Re-useable & washable, collects 20 - 50+ lbs. of sludge
- Durable 24 gallon polyethylene tank that won't dent or chip, 2" Inlet Port; Blue Containment Basket to secure the White Collection Bag
- Shut off float prevents damage to the motor and overfilling; Vacuum's Size & Weight: 19.5 x 17 x 38", 57 lbs.
- Hose & Nozzles: 2" x 12' HD Hose, 16" Squeegee, Narrow Crevice Tool, 30" Wands (2)

**Model S-2000 ~ Pump-Out Vacuum.** Rugged, Powerful, Automatic Discharge Wet Extraction Vacuum - Automatically discharges collected water, slurry, heavy sludge. Identical to the SV-2000 (including hose and nozzle kit), but with a 1/3 HP Sump Pump and without the Separator, Filtering and Collection System.

Shown with optional 30" dual blade squeegee, installs on to either model: S-2000 or SV-2000.

**Applications** - General Purpose HD Vacuum for Wet Applications with the Added Productivity of Automatic Discharge. Can be used in water recovery applications where a greater amount of water is collected. Excellent choice for concrete drilling, grinding, marble sanding and flood recovery. Handles solids up to 3/8".

#T80185  
30" Front Mount Squeegee  
\$290.00

**Model BV-W2000 ~ Barrel Vacuum.** Converts a standard 55 Gallon Drum into a Large Capacity Wet/Dry Vacuum. 2-Motor Power Head is Identical to the above Slurry & Pump-Out Models as is the same Hose and Nozzle Kit.

**Applications** - This vacuum is simply a powerful 2-Motor Extractor that provides a large and possibly a convenient container for vacuuming large volumes of liquid waste. From plain liquids to heavy sludge, all types of liquids can be easily, quickly and conveniently extracted and contained in the 55 gallon drum for possible additional processing and/or disposal at a later time. When the 55 gallon drum is full, simply remove the Barrel Head and place it on the next drum.

BV-W2000  
Wet Filtration  
\$890.00

**Features:**

- Vacuum head combined with adaptor ring laid onto standard 55 gallon drums
- Rugged Steel Construction with a 2" Inlet Port on the Drum Adaptor
- Power: Two (2) 1000 Watt (8.5 amp) Motors, 195 CFM, 126" H20; each motor with its own on/off switch
- Included Equipment: 2" x 12' HD Hose, 16" Squeegee, Narrow Crevice Tool, 30" Wands (2), Perforated Float Cage
- Optional Filters are available to convert the wet model for dry extraction.

**VACUUM CLEANER REPLACEMENT FILTERS & ACCESSORIES**

**SEPARATOR / COLLECTION BAGS.**

SB24	Blue Slurry Separator Basket - Fits 24 gallon slurry vacuum tank (Slurry Vacuum Model, SV-2000). Re-useable and washable, equipped with 2-1/2" rubber gasket collar. Prevents the High Efficiency White Slurry Collection Bag from becoming entangled with the integrated sump pump along with providing easy removal from the collection tank. . . . . \$88.00 ea
SW24	White Slurry Collection Bag - High Efficiency Slurry Bag captures and contains the finest of particles while allowing water to flow freely for un-obstructive operation. Fill capacity of sludge is only dependent on the operator with a bag capacity of roughly 100 pounds. Fitted inside the Blue Slurry Separator Basket, removal, handling and disposal of slurry is easy and without a mess. Re-useable and washable, equipped with HD rubber gasket collar. Each SV-2000 Vacuum includes two (2) SW24 Filter Collection Bag. . . . . \$88.00 ea

**NOZZLE KIT, 30" FLOOR SWEEP, HOSES.**

S79000	2 HD Nozzle Kit - For use with 2" Hoses. Includes: 16" Floor Brush on wheels, 16" Squeegee on Wheels, Wands (s), Brush, Narrow Crevice Tool, Adaptor, Hose Cuffs (2).	\$ 110.00
T80185	30" Front Mount Floor Sweep Assembly. Used for both dry powder and wet slurry pick-up. Installs onto 24 Gallon Tanks. Includes foot pedal for raising and lowering the front mount and secures in lock-in upright position.	\$ 75.00
25HOSE	2" x 25' Hose - Lightweight, Flexible, Smooth Bore Interior - w/ Hose Cuffs (2" Hard Plastic for vacuum's 2" inlet port & (3) additional soft vinyl cuffs)	\$ 140.00
25C-HOSE	2" x 25' Hose - Crush Proof, Heat-Proof, Smooth Bore Interior - w/ Hose Cuffs (2" Hard Plastic for vacuum's 2" inlet port & (3) additional soft vinyl cuffs)	\$ 190.00
