Diamapads – the only diamond impregnated pad (DIP) in the world that contains both diamonds and Ferron®, which is the only substance that can scratch a diamond. Likewise, if your floor is considered Stage 2 (smooth, minimal or no scratches, just worn *badly* or dirty), **Diamapads** are the easiest, simplest, safest and fastest way to start, finish and *maintain* a floor.

From 100 to 8000 grit, Diamapads provide exceptional performance and durability - Outperforming & Outlasting any other DIP by at least 3:1. As long as the surface has been prepped and/or is smooth (no broom finishes, coatings, deep scratches), Diamapads will not only **Sand & Polish** but you'll be able to use the same pads to maintain the floor's cleanliness and shine.

Restore, Clean & Polish with DiamaPads - Floor Care System

DiamaPads - Work twice as fast as competitive pads (normally only requiring 4-5 passes per grit) and last 3 times longer.
