

Deluxe Surface Guards

5" & 7" ~ Surface & Edging

7" Deluxe Surface Guard

5" Deluxe Surface Guard

Installation / Assembly Guide

Deluxe Surface Dust Guards — Lightweight, Durable Guards with Flexible Rubber Diaphragm — To easily follow the contour of any type of surface - Smooth or Rough - while maintaining max dust control. Hinged Edge Cover grinds along wall edges. Replaceable Nylon Glide Strips. Fitted Air Vent controls the vacuum cleaner's suction (prevents suck-down). Assorted collars for installing the guard onto your grinder.

Self-Leveling Rubber Diaphragm

Flip-Up Hinge for Edge Grinding

Adjustable Air Vent for Suction Control

2" OD Swivel Hose Port - Optimizes Vacuum Suction and Hose Obstruction

Assembly Guide: 3 Steps.

Fig. 1

1. Select and install an appropriate collar that suits your grinder, mount the guard to grinder (unplug cord), ref. Fig 1.

5" Guard. Shipped with installed collar to fit Makita and Hilti 4-1/2", 5" and 6" angle grinders. Included extra collars fit the following grinders: Bosch, Hitachi, Milwaukee, Dewalt and Metabo.

7" Guard. Shipped with installed collar to fit Makita and Hilti 7" and 9" angle grinders. Included extra collar fits the following grinders: Bosch (2-7/8" bore), Hitachi, Metabo.

Included Assorted Collars

2. Install a diamond cup or abrasive wheel. Wheels without the 5/8-11 threaded hub require an Adapter Wheel Kit (part number 23283, Fig. 2). The clamping set is used to obtain the perfect height for both diamond cup and abrasive wheels. The adapter set is re-useable and used to accommodate wheels that do not have a 5/8-11 T thread Hub. The adapter set is all you need. Wrench included.

Fig. 2

3. Safely secure the wheel with the included wrench.

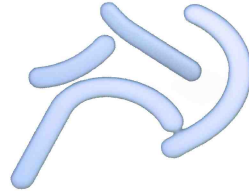

Optional Available Accessories

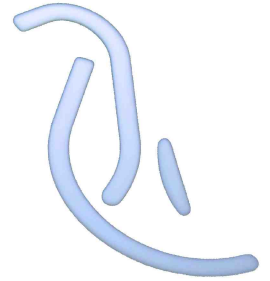

Assorted Insert Collars to suit various Angle Grinders, sizes: 4-1/2" to 9" grinders.

1" Replaceable Nylon Wear Strips

5" Replacement Wear Glides
#5WS-K

7" Replacement Wear Glides
#7WS-K

Re-Useable Diamond Cup Wheel & Abrasive Wheel Kit - for both 5" & 7" Surface Dust Guards.

Complete blade clamping set to obtain the perfect height for both diamond cup and abrasive wheels. Re-useable adapter set accommodates wheels that do not have a 5/8-11 Thread Hub. This adapter set is all you need. Wrench included. Part No. 23283.

9" Loop Handle - Shown installed on the Makita 9" Angle Grinder. Fits the following angle grinders: 7" and 9" Grinders. Improves handling, control and downward pressure directly over the grinding wheel, directly where the pressure is needed. Price includes metric hex nuts. Part No. 9HANDLE.
