

1, 2 & 3-Motor AIRFlow HEPA Filtration Dust Director® Vacuums

Front Mount 30" Squeegee / Floor Sweep Assembly Instructions

#T80185K – For installation onto Dust Director 24 gallon Market Tank (2 and 3-Motor vacuum cleaner models). Prior to installation disconnect the vacuum cleaner's electrical plug from outlet before starting the assembly! Refer to vacuum cleaner's operator manual for safety precautions!

- 1.** Remove wheel caps and insert the left and right lift arms into wheel hubs.

Orientate the arms as shown.

- 4.** Attach squeegee assembly onto lift arms as shown.

Make sure squeegee is level with floor and tighten hand knobs.

- 2.** Orientate and insert latch into rear holes as shown.

You may need to remove one of the lift arms from the wheel hub to insert the latch into the holes.

- 5.** Install front wheel by inserting axil pin through one side of bracket, then through center of wheel, then through the other side of the bracket.

Insert hair pin into the hole on the axil pin.

- 3.** Install crossbar (step peddle) using the 2 Hex bolts and Nylok nuts provided.

The two outside legs of the step peddle are to face upwards and on the outside of the lift arm legs.

Tighten nuts and bolts.
