Dust Director® Vacuum Packages

Self-Cleaning No Electronics Silica Dust Filtration

Specially equipped vacuum packages with purchase of a Dust Director® Guard.

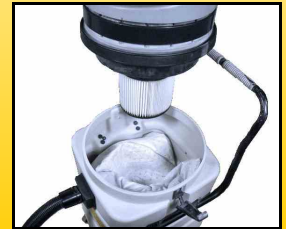

“Always work with a Clean Filter.”

1, 2 & 3-Motor Dust Director® Vacuums with *Non-Blinding* AIRFlow HEPA Filtration:

- Complete with everything you need for a *complete* dustless tuck pointing and cutting system.
- With Dust Director purchase the vacuums include (20) Clean Extreme Filter Collection Bags to provide Non-Stop Suction Power and Clean, No-Mess Handling and Disposal. (Individually purchased vacuums include [3] filter bags.)

AIRFlow HEPA FILTER SYSTEM:

- Expect to grind brick mortar joints all day and everyday without caking the filters, without suction drop and without dirtying the HEPA cartridge filter.
- Vacuum all types of the debris — dry powder, moist debris, hot mastic, etc. — everything is collected and contained within the Clean Extreme Filter Collection Bags.
- Expect to replace the *washable* HEPA cartridge filter *maybe* once a year.
