

Dustless Cut-Off Saws

7", 10", 12" & the 14" Gas Dust Director

Lightweight, Simple & Compact Design for Easy Handling — **Made of Aircraft Aluminum for Lightweight & Durability**

95%+ Containment Efficiency — **Always with Complete Blade Visibility**

EASY HANDLING — The blade window on the 12" model is used to provide complete visibility while cutting horizontal brick joints

10" & 12" Saws – Well balanced, “weightless” sawing in the horizontal or side cutting position using the blade visibility window & large loop handle.

Dust Director® Vacuum Packages

Self-Cleaning No Electronics Silica Dust Filtration

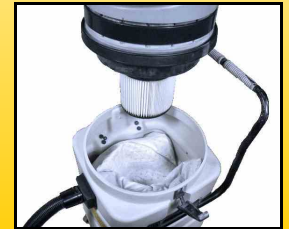

Specially equipped vacuum packages with purchase of a Surface Dust Guard. **“Always working with a Clean Filter.”**

1, 2 & 3-Motor Dust Director® Vacuums with Non-Blinding AIRFlow HEPA Filtration:

- Complete with everything you need for a complete dustless grinding system.
- Includes 2" x 25' hose and (10) Filter Collection Bags for Non-Stop Suction Power and Clean, No-Mess Handling and Disposal of Debris (when purchased separately, a Dust Director® Vacuum is equipped with a 12' hose and (3) filter bags.)

AIRFlow HEPA FILTER SYSTEM:

- Expect to grind brick mortar joints all day and everyday without caking the filters, without suction drop and without dirtying the HEPA cartridge filter.
- All types of the debris, from dry powder, moist debris or hot mastics - everything goes into and is completely contained within the Clean Extreme Filter Collection Bags.
- **Expect to replace the HEPA cartridge filter maybe once a year.**
